

# Green Innovation Micro-Grant 2026

## Test Grant Guideline — GrantCheck Demo

Program purpose: The Green Innovation Micro-Grant supports small organizations developing practical projects that reduce energy use, waste, or carbon emissions.

Funding available: Up to INR 500,000 per approved project.

Submission deadline: 30 November 2026.

## 1. Mandatory Eligibility Requirements

**REQ-001 — Applicant eligibility:** The applicant must be a registered organization operating in India for at least 2 years.

**REQ-002 — Project scope:** The proposed project must demonstrate a measurable environmental benefit, such as reduced electricity consumption, reduced waste, or reduced emissions.

**REQ-003 — Project budget:** The requested grant amount must not exceed INR 500,000, and the application must include a detailed project budget.

**REQ-004 — Implementation plan:** The application must provide a project timeline covering major activities, milestones, and expected completion date.

## 2. Mandatory Supporting Documents

The following documents must accompany the application:

- Certificate of organization registration.
- Detailed project budget.
- Project implementation timeline.
- Authorized representative declaration.

## 3. Recommended Information

**REC-001:** Applicants are encouraged to provide baseline environmental data from the 12 months preceding the project.

**REC-002:** Applicants are encouraged to describe how project results will be measured after completion.

## 4. Evidence and Claims

Applicants should provide evidence supporting material claims about current operations, expected environmental impact, organizational capability, and project readiness. Unsupported claims may be flagged for clarification.

## 5. Review Note

Meeting the requirements in this guideline does not guarantee funding. GrantCheck is intended only as an AI-assisted completeness and evidence-review tool. It does not make an authoritative legal, regulatory, or funding-eligibility decision.
